28759 Bremen

December 20 2023

Dear Professor Omelchenko,

Re: "Associate Professor of Applied Mathematics"

I am applying for the position of Associate Professor of Applied Mathematics, as advertised with reference JR100115.

I believe that I have the necessary technical skills and attributes, such as a proven track record of inter-disciplinary research and excellent written and verbal communication skills, to be well suited for the position. I have experience of teaching at Constructor University, as well as other institutions in the United Kingdom, and internationally. My teaching statement describes how my teaching experiences have developed.

A research statement outlines my evolution as a researcher, describing former research interests, as well as future plans.

I believe that the position of Associate professor is the most appropriate, but am willing to open to negotiation.

Please find enclosed a copy of my curriculum vitae, including a list of publications as well as references, research and teaching statements, and certificates. Please do not hesitate to contact me if there are any other materials or information which may assist in processing the application. Thank you for your consideration.

Yours faithfully,

David Sinden
